Charlton & Jenrick^{LTD}

Best of British fires, fireplaces & stoves

Issue 2

Welcome to the new Charlton & Jenrick range of contemporary and traditional fireplaces. As a leading UK manufacturer and supplier we take great pride in the design and manufacture of our fireplaces, fires and wood burning stoves. The end result is a stunning range of fireplaces that work, as designed, in harmony with a wide choice of fires and multi-fuel stoves.

All the fireplaces in this brochure are designed and manufactured with quality in mind using the best available Limestone. We believe to fully understand these designs and finishes you need to see the products in the flesh. We always recommend that you visit a Charlton & Jenrick authorised showroom to see the fireplaces in their true glory.

Charlton & Jenrick^{LTD}

Best of British fires, fireplaces & stoves

Made to Measure and Alterations

Whilst looking through this brochure you will see many styles and designs that offer a wide choice to suit most homes. The sizes are of the fireplaces are the most commonly requested but don't worry if the sizes shown don't exactly meet you requirements. We offer a full made to measure special service for any of our fireplaces featured in this brochure, we can also easily make small modifications like hearth sizes so they fit with the current cut of you carpet or flooring.

For more details on this service please speak to your local Fireplace Showroom who will be happy to help. Please note minor alterations may take up to a week longer to deliver and special sizes will need to be manufactured so please allow 4-6 weeks for these.

As well as the specials we offer we also have a range of Black Granite Back Panels & Hearths and a choice of Slate Effect & Gold Quartz stone chambers for inglenooks and stove installations.

Modern

Contemporary or traditional?

Our electric fires have been intelligently designed with versatility in mind so they are suitable for any room, whether traditional or contemporary, incorporating realistic flame effects from 3D Ecoflame™ and Ecoflame™ technology which brings a comforting warmth to any home.

A popular choice for people that prefer electric to gas – their versatility and low watt usage allows them to be fitted anywhere there is an electric supply, making them viable for use in apartments, flats, remote locations, in houses without chimneys/flues and where there are no options to use gas.

- Choose from traditional inset fires and hang-on-the-wall contemporary fires
 - Mix and match frets and trims to suit your room
 - Suitable for use where gas isn't an option
- Realistic flame effects give your room a warm welcoming feel
 - Various fuel bed options available

We have an electric fire to suit you!

Inset 16" Electric Fires with 3D Ecoflame™ technology

Introducing a new range of Inset 16" Electric fires with ultra-realistic flame effect thanks to the brand new 3D Ecoflame™ technology from Charlton & Jenrick Ltd.

Designed to give the look and feel of a real fire, but for customers that prefer electric.

- Loose realistic log, glass beads or coal fuel bed (use all three together if you wish)
- Exciting realistic flame effect with 4 mood settings with choice of warm dark orange flame or orange and blue flame
- Remote control with timer and thermostat built in
- High level side buttons for easy access
- Two generous heat settings Low .75kW and High 1.5kW
- Fits most Paragon frets and fascia's

The Ecoflame™

Setting a new standard in low energy electric fires. A realistic flame effect, creating the perfect ambience for any room. Shown above is the Ecoflame 16" electric fire with Elite Satin fascia in the Fireline Leighton surround.

Hang on the wall Electric Fires

Enjoy the comfort and luxury of the Ecoflame™ – simply plug in, switch on and warm up. The wall-mounted electric fire from Charlton and Jenrick is an ultra-modern fire packed with features and benefits.

This sleek, modern, 2kW wall-mounted electric fire is ideal for the more discerning customer. During its development, great attention has been paid to its quality and its specification. The Ecoflame™ is launched with a choice of flat or curved black glass, a fixed log or pebble fuel bed or the option to have no fuel bed at all, for an ultra-modern look. The Ecoflame™ is also very flexible and with heaters that blow from the side, it can be sited below a TV and even close to the carpet.

- Each fire comes with a choice of fuel bed – log or pebble
- 2 x 1kW independently selectable heaters that blow from the sides so it can be fitted below a TV and close to the carpet
- Variable brightness and colour flame effects
- LED back lighting (orange, white, blue or lightshow)
- Universal engine that accepts flat or curved fascias
- Superb bright flame effect that fills the large fire window
- Kettle plug for easy installation and servicing
- Full-feature remote control
- Separate wall-mounting bracket system for easy installation

The Amara curved front

The Medi & Amara

Contemporary and stylish with unique features, designed to add a subtle ambience to your living room. Shown above is The Medi with flat glass front. All backlights are also available with the Medi fire. Unique features include subtle ambient backlighting and adjustable flame speed, to add an extra dimension of warmth. However, it's not just the contemporary looks that makes these fires stand out. Our dual heater fans are designed not only to warm your room, but to actually blow down, so the fire can be placed below a wall-mounted plasma TV.
